JOB PRINTING, OF ALL KINDS, EXECUTED AT THIS OFFICE WITH TASTE AND DESPATCH.

Grass Misrepresentation.

The *Batavia Democrat* publishes a list of Newspapers said to be in favor of the District plan of choosing Delegates to Charleston, and adds, "The papers which oppose the people on this question are the *Atlas & Argus*, *Rome Sentinel*, *New York Journal of Commerce*, and seven family papers in all ten."

We cut the following list from the *Rochester Union*, and believe it to be a correct list of those papers which advocate the appointment of the Delegates to the State Convention. It will be seen that the list embraces the leading Democratic papers of the State, whose circulation is, we venture to say, ten times as many as are issued by the papers named in the list of the *Democrat*.

Instead of ten, it will be seen there are forty opposed to prostrating the power of the State, and are in favor of appointing Delegates in the way they are appointed in other States. But our object is to give a specimen of the deception of the print in question, and to show what little reliance is to be placed upon it.

NOT WORTH THE MONEY.—The physicians of Louisville have struck for higher wages. Under the present arrangement no person can be born or die in Louisville at a cost of less than fifty dollars. We think this is very dear, indeed, for not half the persons who are born here or elsewhere, are ever worth fifty dollars to the community, and three-fourths of those who die had better never been born. Such births are profitable only to sensa takers, and State Prisons, so says an *Exchange*.

TO REMOVE FRECKLES.—The best preparation to remove freckles, which are so common at this season, is a teaspoonful of cold, sweet milk, and a small quantity of scraped horse-radish. Let it stand from 6 to 12 hours, then use it to wash the parts affected 2 or 3 times a day. Another mixture of half a drachm of ammonia, two drachms of lavender water. Use it with a sponge two or three times a day. A still simpler composition is a quarter of a drachm of borax, half a drachm of sugar, and one ounce of lemon juice. Mix and let it stand for a few days, then rub it on occasionally.

CLEVELAND AND BUFFALO STEAMBOAT LINES.—It is reported that Captain E. B. Ward has at last put a stop to the competition on this route, by buying the charter of the *Lake Erie Steamboat*, company, and thus getting both lines into his own hands. He will run the city of Buffalo and Western Metropolis between Cleveland and Buffalo, and the Arctic and Frontier between Cleveland and Toledo hereafter, so says the *Buffalo Republic*.

WILD-CAT BASKING IN ILLINOIS.—Illinois is wonderfully prolific of wild-cat banks. Nearly every day ushers one of them into existence, located, generally in some remote quarter of Egypt. The Chicagoans are becoming alarmed under this state of things for the credit of their State, and the *Press & Tribune* loses no opportunity to warn the people against giving currency to these irredeemable "promises to pay." In a recent issue it says:

We are well aware that all we can say upon the subject will have very little effect till the evil becomes so enormous as to cure itself. So far from withdrawing currency and making exchange with the bonds, the currency makers are issuing it almost without limit. Scarcely a day passes that some "wild cat" does not pounce upon us from some obscure corner of Egypt, and the circulation of the old banks is being increased enormously. Signing bills, as president or cashier, has become a regular business, both in this city and Springfield. Even boys have power of attorney to sign bills for the president or cashier, at twenty-five cents per hundred sheets.

Though well convinced that our warnings for the present cannot stop the remorseless wheels of these "rag mills," the meanest tyro in finance can predict the inevitable result. Ere many months another crash must come, and if the people get ninety cents for their promises to pay instead of ninety-eight, they may consider themselves fortunate. The soulless sharpers who are preparing this piece of genteel swindling, laugh at our anxiety; but though we have no power to prevent it we shall not cease to warn our readers of the new disgrace that is preparing for our noble State.

GOOD IF NOT BETTER.—The *Tribune* correspondent at Springfield (Mass.) writing to that paper says:

"Some of the members are anxious to write initials after their names, indicating that they belong to the American Association for the Advancement of Science. The letters A. A. S. are so many that it is proposed to abbreviate the name of the Association, and a Committee was appointed last year to curtail it. The most popular name appears to be American Scientific Society."

The names of the members would then be adorned thus—Prof. C. C. Felton, A. S. S.

BLONDIN'S GREAT FEAT.—It is rumored that Blondin intends walking the Atlantic Cable to search for that "kink" which has so far "broken the continuity." De Saunty will be firmly lashed to his back, and as soon as the kink is found, will communicate the intelligence to Queenstown and Valencia. Some people may be inclined to treat this rumor as a hoax, but did not these same unbelievers regard the first statement of Blondin's intention to walk the Cable at Niagara in the same light? Clearly, there is too much skepticism in this "age of enlightenment."

Digby says that the *Utica Telegraph*, from which we clip the above paragraph, must be "under conviction," it exhibits such a "serious turn" of late. Digby don't doubt but that Blondin will do what he says he will, by no means—why should he?

The *Boston Courier* re-narrates the following anecdote:

Two or three years ago, during a season of illness, Mr. Choate was visited by one of his friends, who urged upon him the importance of paying more attention to his health. "Sir," said the visitor, "you must go away; if you continue your professional labors thus, you will certainly undermine your constitution." Mr. Choate looked up, and with that grave irony and intolerable expression when he jests, said: "Sir, the constitution was destroyed long ago; I am now living under the by laws."

A Gold Hunter Returned.

On last Wednesday evening we were surprised to receive a visit from our old friend John Blouse, of York township, who was on his way home from Pike's Peak. He gives a discouraging account of the gold mines—says that thousands of men are wandering over the mountains searching in vain for gold—that Gregory's are the only diggings that have been found that will pay, and only about one hundred men are there employed who make good wages. Mr. Blouse also corroborates the statements of numerous other persons, that Greeley was fooled by the miners. As an instance how Gregory hoaxed him, he told Greeley to dig up a shovel full of dirt and he would wash it out, and show him that his diggings were no humbug. Greeley did as directed. Gregory washed it out, having in the meantime gold dust deposited in his sleeve, which he let drop into the pan. Greeley of course was astonished at the richness of the diggings—published a statement—the people having confidence in him, flocked to Gregory's and Gregory sold his claims at a big figure. —*Tuesdays Advocate*.

Miscellany

Those who labor under the impression that God made a mistake when he created birds, are altogether wrong."

Duties fulfilled are always pleasures to the memory.

Of all earthly music, that which reaches the farthest into heaven is the beating of a loving heart.

A writer on swearing says: "An oath from a woman's lips is unnatural and incredible. I would as soon expect a bullet from a rosebud."

Madame Jeany Lind Goldsmith is to visit Ireland in the autumn, for the purpose of singing in oratorios. She intends giving the "Messiah," for the benefit of the Mercer's Hospital in Dublin.

A farmer in Oakland county, while in Detroit one evening, drove into an open sewer, and injured himself and wife. He brought a suit against the city for \$90,000 damages.

The *Niagara Falls Gazette* says there was an attempt to fire the M. E. Church, at Cayuga Creek, on Saturday night—the result, it says, of a society quarrel. We believe the place named is on the Canada side.

An attempt was made by about 100 prisoners at Sing Sing to overpower their keepers and escape, on Monday night.

Wherever the Sons of Temperance have enlisted the ladies in their cause, and permitted them to attend their meetings, the Order has been regenerated and received new life.

It is a beautiful custom in some Oriental lands to leave untouched the fruits that are shaken from the trees by the wind; these being regarded as sacred to the poor and the stranger.

Laborers have been striking in St. Louis, and the sun has been striking in Cincinnati. The number of sun-strokes in the latter city is very great, and deaths therefrom are quite numerous.

HELP!—The *Palladium* says that farmers in the vicinity of Oswego are very much in need of help to carry them through the harvest. They offer from one dollar to twelve shillings a day for first class hands, such as superior cradlers &c.

An ingenious dodge of the counterfeiters was detected in New York, Friday.—good one dollar bills of various Banks are mutilated by taking out the name of the Bank, which is afterwards pasted on tens and twenties of broken Banks. The bill thus manufactured is dangerous.

He who never relaxes into sportiveness in a wearisome companion; but beware of him who jests at everything! such men disparage by some ludicrous association, all objects which are presented to their thoughts, and thus render themselves incapable of any emotion, which can either elevate or soften.

The Mt. Morris Union says: "On Monday last Constable Denison arrested a young man in this village by the name of Charles Wilson, on a charge of stealing cattle some time since, near Danville. As we learn the cattle were driven to this place and slaughtered and sold to our citizens. It is said the evidence is conclusive against Wilson—if so, he will no doubt find a home in Auburn. He was taken to Danville for examination."

Mr. W. T. Aymer, a circus actor, is about making arrangements to do some somersaults at Niagara which will entirely eclipse M. Blondin's feat of tight rope walking. He proposes to turn a somersault down into the water at the foot of Goat Island, a depth of 170 feet from the point where he springs! he chooses this place because it is the only one with sufficient depth of water, and clear of rocks, for him to alight in.

THE RARET "SECRET."—In the "Gentleman's Friary," by Bartlett (sixth edition), published in 1782, page 393, is the following: "The method proposed by Dr. Bracken is to tie up one of his fore feet close, and to fasten a cord or small rope about the other fetlock, bringing the end of it over horse's shoulders; then let him be hit or kicked with your foot behind that knee, at the same time pulling his nose down strongly to the manger, you will bring him upon his knees, where he should be held until he is tired, which cannot be long; but if he does not lie down soon, let him be thrust sideways against his quarters, to throw him over. By forcing him down several times in this way, you may teach him to lie down at the same words you used for that purpose." Bracken's system is exactly the same.

A Question.

Unwashed hair by way worn fast, Then fold them in the winding sheet, And let the poor girl sleep the sleep That wakes, we trust, in Heaven.

For did not our Good Father give, Upon this one, a life to live? Was not her last breath loaded with A prayer to be forgiven?

OLD MAIDS.—Many of the satirical aspersions cast upon old maids tell more to their credit than is generally imagined—is a woman remarkably neat in her person, "she will certainly die an old maid." Is she frugal in her expenses, and exact in her domestic concerns, "she is cut out for an old maid." And if she is kind and humane to the animals about her, nothing can save her from the appellation of "an old maid." In short, we have always found that neatness, modesty, economy and humanity are the never failing characteristics of an old maid.

DR. M'LANE'S CELEBRATED VERMIFUGE AND LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE, For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS, For the cure of LIVER COMPLAINTS; all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE, preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivalled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS, PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.
P. S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and refer more to Dr. M'Lane, prepared by Fleming Bros., Pittsburgh, Pa. To those writing to give them a trial, we will forward per mail, post paid, in any part of the United States, one box of Pills for twelve three-cent postage stamps, or one trial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents.

MADAM JULIE DE MARGUERITE. With an Introduction by Dr. R. SHELTON MACKENZIE, handsomely bound in one volume, 12mo. cloth.

PICT. E. \$1.25.
And published by G. G. EVANS, 435 CHESTNUT ST., PHILADELPHIA.

"ITALY AND THE WAR OF 1859."—This handsome volume, written by Madame Julie de Marguerite, and suitably illustrated with Maps and Portraits has just been published by G. G. Evans (the original G.P. Book Publisher) of Philadelphia, at the low price of \$1.25, and is well timed as it is well executed. The design is to show Italy in her Past and Present, so that the reader may understand on what grounds she bases her expectancy of a glorious Future, with this view the author, who has travelled largely through Europe, and has resided for a considerable period in Milan, with visits to the other great cities of Italy, describes places with which she is acquainted, and personages whom she intimately knew. The statistics of the various States now engaged in hostilities, are given, with biographical sketches of the belligerents generally, and Statesmen, whom the war has thrown into promineny. A great deal of personal anecdote is introduced, which very much adds to the spirit and acceptability of the work. The causes of the war are fully and fairly developed, and there is appended an authentic account of the war itself up to the present time, including the official report of the various battles, and the celebrated exploits of General Garibaldi, the gallant Guerrilla leader.

We notice that in an Introduction to the work, Dr. R. Shelton Mackenzie, Librarian, and Foreign Editor of "The Press," (Philadelphia) very warmly eulogizes its designs and execution. A copy of the book, and a handsome present, will be sent by mail, post-paid, upon receipt of \$1.25 for the book, and 31 cents for postage. A new Classified Catalogue of Books and Gifts, with inducements to Agents, will be sent free, on application.

The Metropolitan Rail Road Circus.
From an advertisement in another column our readers will see that we are to have another Circus show here on Saturday next. The company with the trained horses and ponies of H. Whitty & Co. have recently performed in New York at Niblos Garden and drew large and fashionable audiences. We are glad to notice a great improvement in the character of these exhibitions within a few years, in the avoidance of vulgarism and double entendres. Many useful lessons may be inculcated in the athletic exercises of a circus, teaching us to what extent man may be educated to perform acts of daring with safety, and how to grow physically strong. The extent to which the horse may be trained also, is by no means a useless lesson. We are not altogether mindful of the fact that a Circus is in its character just what popular taste demands and therefore if we would improve this class of shows, we should exhibit our preferences for the good, and our disapprobation of the bad, whenever we find that element engrained upon it. Those who give these exhibitions seek out the public taste and adapt their performances to it, so therefore it is popular taste, not the Circus that is to be blamed if it is not always as refined as some fastidious people would have it.

We have reason to think that the performances on Saturday next by the Metropolitan Rail Road Company of H. Whitty & Co. will be among the best of the season.

Summer Sickness.
Dysentery prevails to a considerable extent in and about Batavia. The extreme dry weather has promoted the development of malarial, which is regarded by many systematic writers as the predisposing cause of the disease, and is excited by sudden changes of weather, and especially by exposure to wet and cold. Impudence in eating indigestible articles of food such as unripe fruit, imperfectly cooked vegetables &c, often excite and aggravate the disease. Persons attacked with dysentery should at once take to the bed and remain quiet as possible, moving about always aggravates the difficulty.

THE CLINTON LIBERAL INSTITUTE.
We would call attention to the advertisement in another column of the "Clinton Liberal Institute" of Clinton Oneida Co. this State. The terms are very liberal, and we should judge its management to be such as to warrant the confidence of those who desire to place their children in a first-class school.

Let CHAM served in very large dishes at the Park Place Saloon to-night.
